

Aims & Topics

The School of Civil Engineering & Built Environment at Liverpool John Moores University (LJMU), in association with ASI Solutions and Colas Ltd, is hosting its 21st Annual International Conference addressing Highways and Airport Pavement Engineering, Asphalt Technology and Infrastructure.

The conference is a continuation of the successful annual event hosted by LJMU since 2001 that has attracted large numbers of speakers from the industry and academia, delegates and exhibitors from the UK, Europe, the Middle East, USA, South America, Australia, and the Far East.

It is aimed at stakeholders with specific interest in developments in:

- asphalt and bitumen technology
- sustainable infrastructure
- environmental protection
- construction materials

The conference will be of interest to:

- policy advisors
- environmental regulators
- infrastructure clients
- research centers, academia, local authorities
- IT in pavements, asphalt & infrastructure
- energy reduction
- aggregate recycling initiatives
- airport and highways design & maintenance
- road surface treatments
- specifiers, planners, and designers
- airports pavement and highway related consultants, engineers and designers
- materials suppliers, construction companies, contractors and educational institutions
