

eDoc Examinations – Submission Planning

Submission Planning is an opportunity for candidates to receive final feedback on their draft thesis prior to submitting for examination. This a formal requirement and a candidate cannot proceed to submission until this has taken place. The thesis should be submitted to supervisors in good time to allow teams **at least one month** to meet with candidates and provide their feedback.

The process is initiated by the PGR via the Examinations tab on the main project page. Below is a step by step guide of the process.
